

<u>Water composition (estimates)</u>						
	fatty matter mg/l	COD ppm	BOD ppm	pH	PO4 ppm	Remarks
						fatty matter mostly as soaps normally water is acidified and skimmed before going to further treatment
	<10000	<30000	<15000	<11	<100	
after skim	<2000	<10000	<5000	<7	<100	note: washwater can partly be re-used as process water
